no appointment**

**Health
insurance
NOT required**

**Your privacy
is protected**

**Getting vaccine
will not affect
immigration status**

Why get a COVID-19 vaccine?

- Authorized COVID-19 vaccines are safe and effective.
- They will protect you, your family and loved ones from serious illness and death from COVID-19.
- If enough Nevadans get vaccinated, we can keep our businesses, restaurants and schools open.
- Widespread vaccination will end this pandemic, the way it ended smallpox, polio, and measles.
